

PRETTY IN PINK

MELANIE AND MICHAEL, 18TH MAY, INLIGHTEN PHOTOGRAPHY

They met whilst touring Europe on a Contiki bus and shared their first kiss in Germany. Eight weeks after their first meeting they were living together...and now they're married.

They both wanted a classic wedding with vintage detailing, a soft colour palette and lots of candlelight. "We got married on my parent's wedding anniversary, so that we could say the same vows on the same date that they did 38 years before," says Melanie. They married in St Johns Chapel, Camperdown and later celebrated at Doltone House in Pyrmont where three large chandeliers impressed the bridal party and guests. A special vintage-inspired wall hutch featured portraits of family and cherished ones - a special tribute to the loved ones in Melanie and Michael's life.

Every moment of the day, including all the stunning details, were captured by Inlighten Photography. "Inlighten managed to capture the most intimate moments between us as husband and wife and we never had to pose or look at the camera," says Melanie. "I love that the photos tell a story of our wedding day."
